**Baldwin Hamilton Baby Grand: \$3400**

5'4" brown finish. The Baldwin Piano Company built this instrument prior to the Depression when quality standards were very high. It was partially rebuilt in 2005 by a professional piano restorer. The pin block was replaced, the soundboard was refurbished and the harp was restrung. The original ivory keys are in excellent condition. This instrument has received regular maintenance and tuning since the rebuild. The piano has a beautiful warm sound. Includes matching bench and cover.

**Weber Baby Grand: \$2800**

5' with beautiful mahogany wood finish and details. Built by the Aeolian Company in 1929, when Weber was in competition with Steinway to produce the finest pianos in the world. This piano has the big bright sound that one expects out of a piano of that caliber. It bears no resemblance to current Weber pianos. It has a beautiful tone, nice action, and a very impressive sound for its size. Finish shows some age, but the wood and detailing is beautiful. Matching bench needs minor repair.
